

Company Data Protection Policy

Document Reference: POL-DPA-2024 | Version 2.1 | Page 1

1. Purpose

This policy defines mandatory requirements for safeguarding customer data across all operations.

2. Data Access

Employees may access confidential customer data only when access is required for their assigned work.

3. Data Sharing

Confidential customer information must not be shared with external parties without written approval from the Data Protection Officer.

4. Data Retention

Customer records must be retained for a maximum of five years unless a legal requirement requires a longer period.

5. Security

Employees must use company-approved systems.
